

ELECTRICITY SAFETY TIPS

Follow these "Do," and "Don'ts" to begin electrical safety in your home

DO test your circuit breaker monthly! Call a licensed electrical worker if the circuit breaker does not trip when the test button is pressed

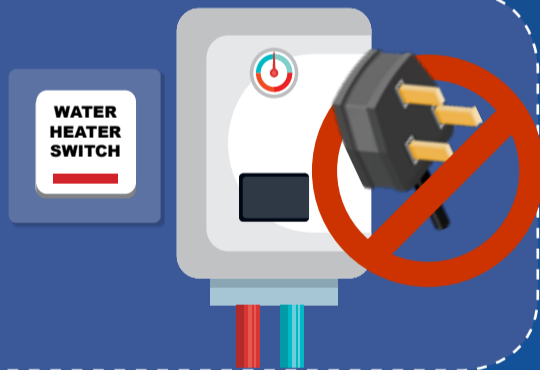

DO Keep electricity and water apart

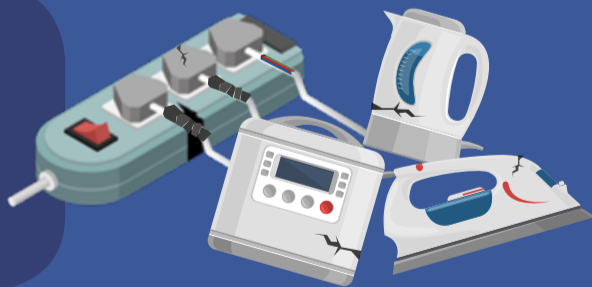

DO ensure the earth wire (green/yellow) is connected to the Earth terminal

DO NOT connect your water heater to a plug as water heater draws high current! If unsure, consult a licensed electrical worker

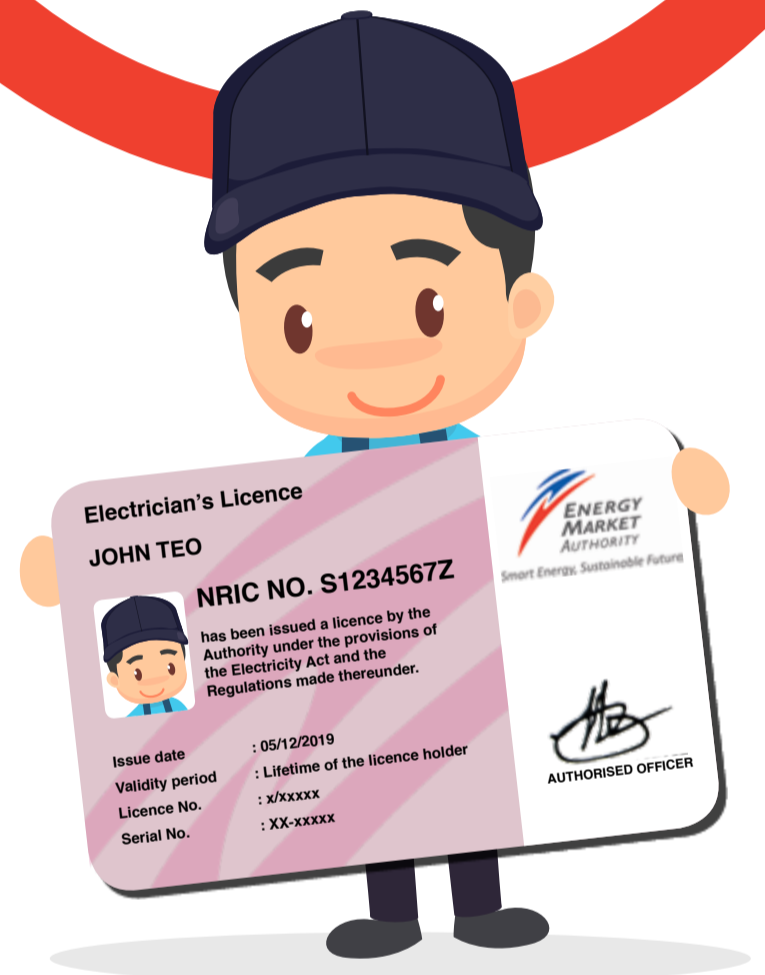

DO NOT use damaged equipment or frayed/broken cable cords. Replace immediately

DO NOT overload power points

Always engage a
**Licensed
Electrical
Worker**
to carry out
electrical work
