

LICENCE NO.	EMA/LNGTO/001
TYPE	LNG Terminal Operator
LICENSEE	Singapore LNG Corporation Pte Ltd
NOTIFICATION NO.	6

1. Pursuant to Condition 2 of the Gas Licence for LNG Terminal Operator Licensee (Licence No. EMA/LNGTO/001) ("Licence") granted to Singapore LNG Corporation Pte Ltd ("SLNG"), SLNG is hereby notified that Energy Market Authority ("Authority") has approved the application of SLNG to provide Cool-down Services and Storage and Reload Services using its spare terminal capacity as Other Regulated Services, subject to the following terms and conditions:

(1) Separate Accounts

SLNG shall ensure that: (i) separate accounts are kept for Price Regulated Services and Other Regulated Services; and (ii) there is no cross-subsidy to and/or from the Price Regulated Services.

(2) No adverse impact on provision of Throughput Services

SLNG shall ensure that the provision of Other Regulated Services will not adversely affect the provision of Throughput Services under the Licence by, inter alia:

- (a) prioritising the availability of resources for or in relation to the provision of Throughput Services over the provision of Other Regulated Services; and
- (b) curtailing or suspending the provision of Other Regulated Services to prioritise the availability of the terminal for the receipt and regasification of LNG during any period of curtailment or

Y. Chan

suspension of piped natural gas ("PNG") supply into Singapore except when the curtailment or suspension of PNG supply is due to scheduled maintenance or termination of the relevant PNG supply agreements ("Gas Emergency").

(3) Assist in mitigating Gas Emergency

In providing Storage and Reload Services to any customer, SLNG shall procure from the customer the right for SLNG to purchase, in the event of a Gas emergency, the customer's LNG inventory at a fair market value.

(4) No potential conflict of interests with other terminal users

SLNG shall ensure that the provision of Other Regulated Services will not result in SLNG having any potential conflict of interests with other terminal users.

(5) Limit on LNG inventory for provision of Storage and Reload Services

SLNG shall not own an inventory of more than 6,000m³ of LNG (excluding the remaining balance of any LNG inventory used for the commissioning of any equipment of the terminal approved by the Authority) for the purpose of providing Storage and Reload Services.

(6) Penalty

Any contravention of the conditions set out in this Notification shall be deemed to be a contravention of the LNG Terminal Operator Licence and shall be dealt with in accordance with Section 19 of the Gas Act (Cap. 116A).

(7) Remedial Steps

Where contravention of any of the conditions set out in this Notification has occurred, SLNG shall take all necessary remedial steps and action to bring such contravention to an end without delay at its own costs and expenses. Such costs and expenses shall not be directly or indirectly passed to customers of Throughput Services or Other Regulated Services.

(8) General

Yals

For the avoidance of doubt, this Notification shall form an integral part of the LNG Terminal Operator Licence (Licence No. EMA/LNGTO/001). Any word or expression used in this Notification shall, unless otherwise defined, have the same meaning as that used in the LNG Terminal Operator Licence.

2. Schedule 3 of the Licence shall be deleted and substituted with the Schedule 3 in the Annex.
3. This Notification shall come into effect on the date set out below and shall supersede Notification No. 3 and Notification No. 4.

NG WAI CHOONG
Chief Executive
Energy Market Authority of Singapore

9 June 2015

SCHEDULE 3:

Other Regulated Services of the LNG Terminal

Other Regulated Services means any one or more or all of the following:-

- (i) Cool-down Services;
- (ii) Storage and Reload Services using the Licensee's spare terminal capacity; and/or
- (iii) any Other Regulated Services as introduced by the Licensee and approved by the Authority.

"Cool-down Services" means one or more of the following:-

- a. the drying of LNG ship tanks;
- b. the purging of air from LNG ship tanks with inert gas;
- c. the gassing-up of LNG ship tanks;
- d. the cool-down of LNG ship tanks to the required temperature; and/or
- e. the loading of LNG into LNG ship tanks to provide the tanks with the required heel.

"Storage and Reload Services" means the following: -

- a. the provision of one or more jetty slots to a Storage and Reload Customer for the berthing of LNG ships for the unloading of LNG cargo;
- b. the receipt of such unloaded LNG cargo from LNG ships;
- c. the storage of such unloaded LNG for a specific period of time;
- d. the provision of one or more jetty slots to a Storage and Reload Customer for the berthing of LNG ships for the reloading of the stored LNG;
- e. the pumping and reloading of LNG onto LNG ships;
- f. the assignment of the LNG inventory of a Storage and Reload Customer to other Storage and Reload Customers, as agreed between them; and
- g. associated services such as measurement, testing and accounting of LNG inventory.

"Storage and Reload Customer" means a customer receiving Storage and Reload Services from the Licensee.
