Anchor Events

3. SIEW's anchor events organised by EMA will include:
 - I. **SIEW Summit - comprising the Singapore Energy Lecture, SIEW Opening Keynote Address & Singapore Energy Summit:** These events will bring together energy leaders and industry experts to address topics that set the scene for discussions across the week. These include:
 - Securing a Sustainable and Resilient Energy Future
 - Accelerating Low-Carbon Solutions
 - Mobilising Greener Financing for Energy Infrastructure
 - II. **Singapore-International Energy Agency (IEA) Ministerial Roundtable:** Co-hosted by EMA and IEA, the roundtable will focus on the theme "Energy Security in a Low Carbon World".
 - III. **2nd Singapore-IRENA High-level Forum:** The Forum will address topics on green energy financing and decarbonisation technologies and feature the launch of a report by IRENA on green hydrogen.

- IV. **SIEW ThinkTank Roundtables:** A refreshed format for dynamic discussions. Returning hosts include ASEAN Centre for Energy, Energy Studies Institute and Energy Research Institute @ NTU.
- V. **SIEW TechTables:** New this year, SIEW TechTables will centre discussions around the latest energy innovations and technologies.

Industry Events

4. SIEW 2022 will also welcome the return of key industry events onsite, held in collaboration with our partners from across the energy industry:

- I. **Asia Clean Energy Summit (ACES)** is the region's premier summit and exhibition shaping clean energy discussions. The 9th edition will focus discussions on Solar Energy and Storage, Green Hydrogen and Electric Mobility. The annual PowerACE competition for clean energy start-ups, in partnership with Temasek Foundation, will be held alongside ACES on 27 October 2022. The top 12 finalists will be given the opportunity to showcase and test-bed their unique solutions to address climate change for Singapore and the region.
- II. The **Asian Downstream Summit (ADS) & Asian Refining Technology Conference (ARTC)** will centre on its theme of "Reconfiguring the Industry for the Global Energy Transition". The two events will explore the various pathways for refiners to integrate sustainability into their operations.
- III. The **Asia LNG & Hydrogen Gas Markets** will seek to tackle critical in-depth issues. These include the impact of war on the LNG markets, risks to an emerging hydrogen economy, and the latest developments in the industry's burgeoning spot market. The programme will also cover the region's continuous drive for energy transition and achieving its net zero goals.
- IV. Back for its second year, the **Future of the Grid** will engage industry professionals on contemporary grid-related matters. Topics will include driving regional interconnectivity, financing grid modernisation, digitalisation and more.
