Singapore's Energy Sector Welcomes Seven Youths Under the Energy-Industry Scholarship

Seven engineering students have been awarded this year's Energy-Industry Scholarship (EIS). The EIS is offered jointly by the Energy Market Authority (EMA) and sponsoring organisations, with the aim of supporting and nurturing young talent for the energy sector.

2 The seven scholarship recipients will be attached to four energy companies upon completion of their studies and National Service (if applicable). The recipients and their respective sponsoring organisations are:

Sponsoring Organisation	Name of Scholar	School
KMC O&M Pte. Ltd	Mr Sreeram Rojin	Singapore Polytechnic
	Mr Tan Jun Heng, Travis	
PacificLight Power Pte Ltd	Mr Guan Lixiang	
Singapore Power Limited	Ms Chen Sze Yee	Ngee Ann Polytechnic
	Mr Muhammad Shakir Bin Muhamad Shawaluddin	
	Mr Muhammad Naim Jamal Bin Jamal Isyam	
YTL PowerSeraya Pte. Limited	Mr Muhammad Syafiq Bin Mohamed Farid	

3 The EIS welcomes students who are keen to make an impact in driving Singapore's transition towards a more sustainable energy future. For instance, Chen Sze Yee, a Year 2 Electrical and Electronic Engineering student at Singapore Polytechnic, recognises the critical role energy plays in powering everyday life and is

passionate about contributing to the sector. As the energy landscape evolves, she is excited to be part of the energy transition. “I believe that the energy sector offers a unique opportunity to make a meaningful difference in the world,” said Sze Yee.

4 Muhammad Syafiq Bin Mohamed Farid, a Year 2 Electrical Engineering student at Ngee Ann Polytechnic, also developed a keen interest in the energy sector after his internship at a solar company, where he gained insights into the broader scope of the sector. “In addition to my internship, my stint as an Energy Ambassador allowed me to engage in meaningful conversations with key industry stakeholders. I am excited to be able to play my part in building the future of the energy industry,” said Syafiq.

4 Launched in 2014, the EIS is part of EMA’s and the industry’s collective commitment to develop a pipeline of local talent to power Singapore’s critical infrastructure. The EIS covers tuition fees (as published by the Polytechnic for the relevant academic year), one-time allowance of \$1,200 (to purchase items related to the course of study), and a monthly living allowance of \$1,000.

5 Workforce capabilities will play a significant role in the energy transition as Singapore decarbonises the energy sector. EMA will continue to work closely with the industry to ensure a strong manpower pipeline and competent workforce to support the energy transition.

About the Energy Market Authority

The Energy Market Authority (EMA) is a statutory board under the Singapore Ministry of Trade and Industry. Through our work, we seek to build a clean energy future that is resilient, sustainable, and competitive. We aim to ensure a reliable and secure energy supply, promote effective competition in the energy market and develop a dynamic energy sector in Singapore. Visit www.ema.gov.sg for more information.
