

REQUEST FOR PROPOSAL (“RFP”) TO BUILD, OWN AND OPERATE NEW GENERATION CAPACITY

Corrigendum 3

Date: 19 Oct 2023

S/No.	Comments	EMA’s Response
1	<p>Attached below is a screen grab of the GoBusiness licensing portal submission page where the error on postal code appeared. As mentioned, the system only accepts a valid numeric postal code, hence “EMA identified greenfield site” response per Corrigendum No. 2 would not be possible. As postal code is mandatory, we are therefore unable to proceed to the next page for submission of the application.</p>  <p>Generating unit address: Postal Code * <input type="text"/> Retrieve Address Street Name * <input type="text"/> <small>Please enter your postal code and click "Retrieve Address"</small> Postal Code is mandatory Street Name is mandatory Level <input type="text"/></p>	<p>For Participants using the greenfield site identified under Annex C of the RFP document, Participants to state “119975” under the postal code field when submitting the licence application through the GoBusiness Licensing Portal.</p>
2	<p>Paragraph 2 of the Performance Bond is in conflict with the Association of Banks in Singapore’s guidelines in which banks have to comply for local Bank Guarantee to bear an expiry date. Therefore, we would like to propose for following amendment to Paragraph 2 of the Annex B for Performance Bond (as shown below):</p> <p>2. <i>We understand that the Authority will reduce the Performance Bond Sum progressively upon completion of each project milestone, as stipulated in the Performance Conditions and/or the Authority’s Notice of Award (as defined in the RFP) issued to the Participant and such reduction will be communicate to us in writing. We further understand that the remainder sum of the Performance Bond shall be returned to the Participant after the registration of the new generating unit as Generation Registered Facility with Energy Market Company or a date mutually agreed between the Authority and the Participant, whichever is later, provided the Participant has fulfilled all the Performance Conditions.</i></p>	<p>We are agreeable to the proposed amendment. Please refer to the updated Annex B in RFP document version 5.0.</p>
